GREAT RECORD FOR CHAMBER

CHAMBER OF COMMERCE HAS ACCOMPLISHED MANY THINGS IN LAST THREE YEARS.

The record of the Ada Chamber of Commerce, since its reorganization in 1915, is one of the great accomplishments. When O. N. Walker came to Ada to assume the duties of secretary, there were only seventeen members of the Chamber of Commerce, each of whom had pledged to pay \$1 a month. The membership is now 100, some of the members paying as much as \$10 a month, but most of them paying only \$1.00 as most of the members are individuals and not firms.

The Chamber of Commerce was mainly responsible for College addition being put on the market.

When the reorganization took place in April, 1915, there was an indebtedness accumulated of \$2,400, this being the result of the fair held in 1914 and other enterprises. This indebtedness has been entirely wiped out.

The Chamber of Commerce helped to organize the County Fair Association, and Mr. Walker has been the manager of each fair since he assumed office. During one of these fairs, he took care of the Confederate Veterans with only \$31.00 additional expense.

The American Glass Casket Company, whose plant is to be the largest west of the Mississippi river, was located here through the work of the Chamber of Commerce.

A foundry, well equipped, was located here in the same way.

The Chamber of Commerce bought 45 acres of ground north of the city for industrial sites. This land is now worth three times what it cost. It is entirely paid for.

The Chamber of Commerce secured a railroad track, which can be used equally by the three railroads coming into Ada. Unlike other places, Ada managed to get the railroads themselves to build this track.

The Chamber has furnished one man's whole time, since the first of the year, to the County Council of Defense. In this connection, Mr. Walker handled the transportation of the speakers for all the drives.

The Chamber of Commerce helped secure the bridge for the South Canadian river just north of Ada, and now is helping the county commissioners secure a right-of-way for the road leading to this bridge.

The Chamber of Commerce has been instrumental in getting several conventions, associations and other meetings.

It has advertised Ada in several parts of the country. When the war came on, several industries were figuring on coming to Ada as a result of the drive by the Chamber of Commerce. These will now more than likely renew their overtures.

It helped to secure the unit of the Students Army Training Corps. Without the help of this organization, President J. M. Gordon says the unit probably could not have been obtained.

The organization has been instrumental in keeping the town before the citizens of other localities and other states. With the co-operation of the live local newspaper men and most able newspaper correspondents, the Chamber of Commerce has proclaimed to all the world the advantages of Ada and Pontotoc county. Results have already been evident, and greater results are promised for the near future.

CHARLES GROSS REPORTED KILLED IN FRANCE

Mrs. Ida Gross, 430 W. 5th street, has been officially notified that her son, Charles Gross, was killed in action, November 4, only a week before the armistice was signed. Thus the Ada casualty list grows as one hero after another is reported from the front and the general rejoicing over the return of peace is marred by grief for some who gave their all for the sake of democracy.

AUSTRIAN GOVT. THREATENS TO PUT EMPEROR AND OFFICIALS ON TRIAL.

(By the Associated Press)
LONDON, Nov. 29.—The Vienna government intends to bring to trial all persons responsible for the war, including Count Berchtold, the Austro-Hungarian foreign minister when the war broke out, and Count Cernin, later foreign minister, according to an Exchange Telegraph dispatch from Copenhagen today. Former Emperor Charles, the Austrian Grand Duke and a number of generals are also to be tried, according to these advices.

BAVARIA BREAKS WITH BERLIN

(By the Associated Press)

LONDON, Nov. 29.—Bavaria has broken off relations with the German government at Berlin, according to a Munich message transmitted by the Central News correspondent at Copenhagen. The Munich dispatch states that a message has been sent to the Berlin foreign office by Kurt Eisner, Bavarian premier, stating that the Bavarian foreign office breaks its relations with Berlin, "owing to Berlin's efforts to deceive the people by withholding the truth about conditions."

Baden May Follow Bavaria.
London, Nov. 29.—The Liberty party in Baden has issued a proclamation demanding a complete break with Berlin, according to an Exchange Telegraph dispatch from Copenhagen.

AUSTRIA LOSES 4,000,000 MEN

Obituary.

Charley Russell was born Feb. 26, 1880, at Mayfield, Ky. Died at Ada November 27. He had resided in Oklahoma nineteen years. The funeral service was held at the home of A. M. Crow and wife, West 15th street, Thursday, November 28, conducted by Rev. W. H. Nettles. The body was laid to rest at Rosedale cemetery with the honors of the Masonic fraternity. Deceased was married to Miss Ora Crow, daughter of A. M. Crow and wife, June 3, 1906. Three children were born to them, one of whom survives. One of these, little Charley, died just a month before his father passed away. Dixie Lee, the surviving daughter is ill at this time, but her recovery is expected.

Charley Russell was a loyal citizen and his passing is a loss to the community, for he always stood for the right. He was a loyal member of the Masonic fraternity and stood high in the esteem of his brother Masons, as well as all others who knew him. Death indeed leaves a shining mark.

KAISER WANTS THRONE BACK

REPORTED THAT EXILED RULER EXPECTS TO RETURN TO POWER SHORTLY.

(By the Associated Press)
LONDON, Nov. 29.—Former Emperor William contemplates an early return to Germany to reclaim his throne, according to news received in London through a neutral source of high standing, says the Daily Mail. The Daily Mail adds that the revolution in Germany is being managed by officers of the German high command with a view of eventually causing its collapse and triumphant return of the former emperor to Berlin. Some of these officers, in civilian clothes, have been recognized on the Berlin streets, many of them reported dressed as workmen.

LONDON, Nov. 29.—The former German empress arrived by train Thursday at Maarsbergen, Holland, and went by auto to Amerongen where the former emperor is staying according to a Rotterdam dispatch to the Daily Mirror.

Methodist Four Minute Men.

The organization of a wide awake band of Four Minute Men at the First Methodist church is one of the plans the pastor suggested even before the Centenary Campaign began. Last Sunday morning we had a stirring message concerning the Sunday school and its needs. Mr. Spencer was the speaker. Next Sunday evening the Epworth League will be represented at the regular evening service by Mr. Van Meter. From Sunday to Sunday we expect to have every organization and society of the church presented in this manner.—Wallace M. Crutchfield, Pastor.

Mr. Man and the Church.

Last Sunday evening we took six good reasons assigned as to why men should go to church. Next Sunday evening we contemplate taking the excuses men give for non-attendance. On the eighteenth of this month we addressed seventy-five letters to a like number of representatives of our congregation, and the replies thus far have been helpful and suggestive. If you did not reply last week, kindly do so now so that the pastor may have the information asked for.—Wallace M. Crutchfield, Pastor.

To Those Having Relatives in France.

Now that the armistice has been signed, everybody wants to know if the boys in France are safe. The management of The Ada News requests that you phone or write the facts regarding your relatives as soon as you get a letter written after the signing of the armistice. Every person in pontotoc county is anxious to know who is safe, who is injured, or who has paid the supreme penalty.

BOYS BEGIN RETURNING FROM ARMY CAMPS

The soldier boys are beginning to come home from the camps where they were discharged and in a few days their number will be largely augmented. The first noted are Rance Jones, from Camp Fremont, California; Charley Deaver, from the officers' training camp at Waco, and Joe Cole from Camp Pike officers training school.

Cheerfulness Requires Courage.

It takes a good deal of courage to seem cheerful in wartime, yet it is a detail of one's self-respect to keep a smiling face in public. A display of hysteria indicates considerable indifference to the rights and comfort of others, and is not good form. No matter how hard life may be, one must keep from scolding and scowling and complaining and whining and indulge in tears and grief only in one's own room.—Chicago Evening Post.

Why Crescent Is Turkish Symbol.

When Constantinople was a Byzantine city, Philip, the father of Alexander the Great, tried to reduce it by siege. He was unsuccessful by day, and when he thought to take the city by surprise in the dark the crescent moon and stars appeared and exposed his warriors to the citizens. In honor of her protection of the city the Byzantians built a statue to Diana and made the crescent the symbol of the city.

Alleviates Earache.

If earache does not occur often possibly home treatment will alleviate the suffering, which is always so severe while it lasts. Wring out hot cloths and apply them to the ear. This often brings quick relief. Or moisten a small piece of cotton, saturated with sweet oil or laudanum and place it carefully in the ear. This is generally efficacious if the trouble is caused by the hardening of the wax.

Owl Stopped Wheels of Industry.

The curious combination of an owl and a steel trap in which the bird had become caught and flown away, trap and all, alighting on a high-powered electric cable carrying 11,000 volts of electricity to run a mill at Goodspeed, Conn., stopped the power and threw several hundred men out of work for several hours. Lately, after several hours' search, located the owl, burned to a cinder.

The Oklahoma State Fair is preparing for the usual annual entertainment of the editors of the state at the fair on the 27th. These occasions have always been great events for the newspaper men and this one will doubtless equal any former effort on the part of the fair management. These days afford the members of the fraternity an opportunity to hold a sort of reunion and they appreciate it accordingly.

The attack on the St. Mihiel salient is in keeping with Marshal Foch's method of giving the Hun no rest. Since the early days of the war this sector has been comparatively quiet but now all of a sudden it becomes very active and the German with their hands full in the north must meet this new drive. The probabilities are that the battle line will be extended still more in a few days and the Hunns given all the care to attend to for some time to come. If this wedge is blunted it may not be many days before the lines are pushed back on German soil, since the border is but a short distance from the present line.

AIRMEN MUST BE EXPERT GUNNERS

Somewhere in France, Sept. 13.—(Correspondence of The Associated Press)—Accurate machine-gun fire is the chief requirement of the successful combat aviator, allied aviation experts agree. Fortunately for the Allies that is one department in which their aviators excel.

It is interesting to note the progress made in the weapons used by aviators. At the opening of hostilities airplanes were used mainly for observation work. Their pilots were armed generally with carbines, and sometimes only with an automatic revolver. Then came the fighting airplane and the single and double machine gun.

But these newer and more deadly weapons are useless unless properly aimed, and this is no small task as

the pilot must aim not his gun, but his whole machine. He must use his airplane as a gun mount. It is easy to conjure some of the pilot's difficulties when the gun mount is maneuvering and traveling twice as fast as any express train, while its target is in similar action.

Nor is that all the difference between aerial and ground gunnery. On the ground, ammunition is practically unlimited. In an airplane, every ounce of weight counts, and ammunition is therefore strictly limited. The greater, consequently, is the need for accuracy in shooting.

It is important that no ammunition should be carried which is not absolutely reliable and all is selected and tested. Guns are rigorously inspected, for a jam at a critical moment might prove fatal. In training, on the other hand, ammunition is carefully selected for its badness; the object being, by means of frequent gun jams, to make the clearing of a stoppage automatically simple to the pilot.

The successful air fighter must be a good pilot; but even the most brilliant trick flyer, the "stunter" who can throw his machine about in the air and make it a supremely difficult target for his adversary, is nevertheless incompletely equipped as a fighter unless he can combine brilliant flying with brilliant gunnery. Foch's rule that "offense is the best defense" applies even more in the air than on land, and it is by following that rule that the allied fighters have won their ascendancy over the Germans.

NEWS BRIEVITIES.

Dublin, Aug. 13.—The number of unemployed in this city during the winter months has increased during the period of the war, according to a report of the National Relief Fund. Instead of ameliorating seasonal labor conditions in urban districts the war has accentuated them, the report says. In rural districts there is virtually no unemployment.

Manchester, Eng., Aug. 13.—Remarkable profits have been made in the Lancashire cotton industry since the beginning of the year, despite the shortage of raw material from the United States, and the compulsory stoppage of machinery.

Fifteen spinning concerns publish accounts whose total profits for the half year ended June last, amount to 695,125 against \$209,790 in the six months ending December, 1917. As a result of the good trade reports, share prices have steadily advanced and the capital appreciation since the beginning of the year for the fifteen companies is over twenty percent.

T. N. T. From Pulp Mills.
The world is using a tremendous amount of trinitrotoluol, the high explosive of this war. In fact the supplies of toluol are in some danger of running short. What the Germans will do about it is not known, but the allies are turning to the Canadian pulp factories employing the sulphite process.

It appears that the turpentine from spruce is easily saved at the mills, and can be readily converted into toluol.

Since a gallon of turpentine per cord of wood is a possible by-product and \$5 per barrel is paid for it, there will be some little increase in revenue for the pulp makers, and the armies will be enabled to keep on with their good work of defeating the enemy.

METHODS OF RAISING REVENUES FOR WAR

(By the Associated Press)
Washington, Sept. 13.—The new war tax bill by which it is to be raised one third of the \$20,000,000,000 needed to finance America's share of the world war during the coming fiscal year, is the greatest piece of legislation of the kind ever attempted by a congress of the United States. It touches probably every taxable source and is intended to place the

bulk of the burden where it belongs and make every citizen share the cost of the fight for Democracy.

Far reaching and inclusive, yet the tax burden is said to be not as heavy as that upon the people of England. It is also claimed it will not work the hardship nor demand the self-sacrifice which has fallen to the lot of either the English or the French. The American people may appreciate it more fully and they may understand more clearly the part they are taking financially by giving passing notice at least, to the days in which the Allied countries of Europe and particularly England, have raised their war revenue.

The tax laws of England have ever been more severe than those of the

United States. It is only natural then, that England's war taxation should be proportionately heavy. It must also be remembered that England, being so near the fighting zone and surrounded by waters infested by enemy submarines has had her commerce embarrassed and her rich import duties, once the heaviest in the world, somewhat reduced. In addition to that the demand for man power for the army has taken from factories the labor. Home industry has been paralyzed.

England has, therefore, been compelled to rely almost entirely upon loans—foreign and domestic—and upon a system of internal taxation levied upon incomes, excess profits and luxuries. The same is true of France and the other allied countries.

English income and profits taxation has been classified under five schedules as follows: (a) Landlord's Property Tax. (b) Farmer's Tax. (c) Tax on holders of government securities. (d) Tax on business profits, professional incomes and on sources of income not included under any other schedule. (e) Tax on salaries of public officials and employees.

The properties, profits and gains on which income tax is payable and which fall under these schedules are subject to an assessment on every pound sterling of their value.

Under the first schedule, every person deriving an income from property is taxed, these taxes being payable by the person occupying the property in question.

The second schedule, or Farmer's tax, is almost identical with the first except that the taxable value of the land is fixed by law instead of the tax being levied against the actual income derived from this land.

All incomes, whether in the forms of interest, annuities, dividends, or shares of annuities arising out of any public revenue, are subject to taxation under the third schedule. The tax is assessed at its source, before the taxable income reaches the taxpayer, upon the persons and corporations entrusted with the payment of such income. Interest on certain war loans are exempt under the schedule.

The tax on business profits, professional incomes and on incomes not included under the regular schedules, is so far reaching that it touches practically every source except the incomes of charitable trusts and organizations and certain trade unions. The tax rate is varying according to circumstances.

The rate is applied to all incomes exceeding 130 pounds a year, with certain abatements which decrease proportionately as the incomes increase. The abatement is more generous and the rate lower upon earned incomes than upon those which are unearned.

The incomes of men in the army, navy and Red Cross are also subject to taxation, but in these cases reduced rates are made.

Under the fifth schedule fall the incomes of all employees of the Crown as well as of all ecclesiastical bodies. The income taxable under this schedule is not merely that received in payment of current services, but also all annuities, pensions, stipends and even Easter offerings made to clergymen by their congregations.

The English system of luxury duties is just as inclusive as that of the United States and in many respects the two measures, English and American, are almost identical. In fact the English law was taken as the model, in some respects for the new American tax bill. English law, as far as incomes are concerned, is only a growth and modification of a series of income tax measures which had their origin in the British parliament as far back as 1848.

Like the United States, England has made it a rule to raise about one third of the amount she needed for war purposes through internal taxation. For the remainder she has had recourse to loans and credits of which the United States has furnished \$3,345,000,000.

Canada has also issued \$350,000,000 of domestic loans, about \$90,000,000 of which was taken by American banks. The Australian war loan has amounted to \$399,413,000 while that of New Zealand totals \$107,063,000. India raised one loan of \$500,000,000 which was advanced to Great Britain.

MILLS TO ADVANCE MONEY ON SEED

Oklahoma City, Sept. 13.—Until the government has had time to act upon the notice sent out by the Cotton Seed Crushers' Association to the effect that its members could not operate at other than a loss under the prices and requirements established by the food administration, the association has a plan of action which will keep the farmer from suffering because the mills have suspended operation.

It was announced at the association headquarters this morning that the association will advance the farmer a sufficient amount on his cotton seed to enable him to carry on his farm work. The association will store the seed for the farmer and whenever the government makes its decision, the balance due will be paid for the seed.

In case the government takes over the operation of the mills, it will pay the balance due. If a readjustment of the prices recently set by the food administration is made the association will pay the balance due.

The operators have backed up their action by offering the government the use of the plants and will operate them at actual cost. The association expects representatives to be called to Washington for a discussion of the matter.

GET BEHIND CHAMBER OF COMMERCE.

The story of the accomplishments of the Chamber of Commerce which appears elsewhere in this paper is a revelation to most of the citizens of the town. That we have a Chamber of Commerce every one is more or less cognizant of, but most people think of it as something abstract, and do not realize that it is a live, systematized organization with a definite object in view.

The Chamber of Commerce needs more money. A campaign will be started in a few days to raise \$6,000 for the year 1919. Every dollar will be needed, and every dollar will be used to build Ada into a city. The personal of the officers and directors of the organization is proof that the expenditures will be made in the most effective way.

Get behind the Chamber of Commerce, men of Ada. The war is over. Our boys coming home must have positions and good ones. Will they have them in Ada and Pontotoc County, or will they have to go elsewhere? Industries will be built. Will they be built in Ada or elsewhere? Men of Ada, it is up to you to determine these things. There is not a property holder in this city who does not have a direct interest in the Chamber of Commerce. Will you properly hold support it in order that it may make money for you?

The Chamber of Commerce membership drive on December 9, 10 and 11 means much for the success of that organization. Put your shoulder against the same old spot on the same old wheel where you have pushed before and make your former efforts look like child's play.

It is very well that the Durant Democrat bragged before the game with Ada, for it has nothing to brag about now that the game is over.

Jack London's Eyes.

The eyes of Jack London were unforgettable. I have seen only a few eyes like his, all steel and dew, all sweetness and hidden ferocity, at once feline, challenging, devilish, as though they masked profound and terrible secrets like those lion-faced statues of Egyptian kings; eyes common enough, maybe when the world was young. They were, as Theophile Gautier said of the eyes of Baudelaire, "the color Spanish tobacco sometimes is," and sometimes they were tinted bronze, sometimes blue, and sometimes even black. London's eyes changed with the changing color of his soul, and often seemed filled with the anguish of sins impossible to commit.—The Seven Arts.

An Introduction Needed.

God once gave a reception to the Graces, all of whom seemed to be acquainted with one another, with the exception of two. Observing which circumstance, their host brought them together and said: "Benevolence, allow me to introduce Gratitude."—Leo Tolstoy.

Rice, or Rust.

Rice water is said to be a remover of rust from any fabric that may be washed. Boil a cupful of rice in two quarts of water for half an hour and strain. Soak the rust-stained fabric in this water for a half day and the rust will have disappeared.

Irregular bowel movements lead to chronic constipation and a consequent habit fills the system with impurities. HILL'S is a great bowel regulator. It purifies the blood, stimulates the blood and purifies the system. Price 60c. Sold by Bart Smith.

THE DOUBLE SIGN

BY OTILIA PFEIFFER.

(Copyright, 1918, Western Newspaper Union.)

It was not a whim, a caprice. At the moment I knew not why I did it. I felt an impulse and you probably have felt in a crowded cosmopolitan restaurant thronged with a varied group. I raised my hand at the beck and will of a dark-eyed, earnest-faced man of about thirty I had never seen before, and gave "the double sign."

What the double sign was, mind you, I did not know. I only felt to a surety that it was a double sign. Thus I extended one palm, half straight from my chin, half a sign. I formed a replica of the palm and allowed my hand to sink inert, the double sign completed. Why I had made this sign to the man, in question, how I came to know how to form that duplicate gesture, I must explain.

Our house, Burdick & Co., is one of the largest in the United States in the importation of olive oil. Several times I had gone to Italy on business. It was during a carnival at the town of Vecchio when that double sign came into my life. Vecchio had a double element and was a hotbed of sedition, always at variance with the authorities. A great fête was on. The Princess Colonna, a great favorite with the patriot insurrectionist group, passed through the town, the idol of the populace. I followed the great procession out of curiosity to see her largesse distributed to crowding, adoring thousands. It was on that occasion that I noticed an ordinarily dressed, but keen-visaged man fix his eyes imploringly upon her. He wore a little triangular button on one side of his cap. He made that sign. The princess recognized it. She tore from her wrist a glittering bracelet, tossed it to the man, who flashed back heartfelt gratitude, and then he disappeared.

And now, because I had noticed a flashing-eyed Italian-faced man with the same peculiar button in his cap, the same probing, expectant expression in his face, as though seeking in desperation recognition, friendship, assistance, I must perform the sign that had caused a royal princess to scatter broadcast her jewels! Quite romantic, truly! But the cosmopolitan glare of the great mixed restaurant, holding Bohemians from every clime, had something to do with it.

In a flash that wild, somewhat fierce, yet markedly intelligent face, full of haggard, anxious woe and hopefulness, brightened. Those piercing eyes seemed to invade the very secret chambers of my soul. Then there crossed those features that glow that only a sinking, despairing castaway could express finding a saving hand suddenly extended.

"The Foscari," he uttered, in a low, intense tone, gazing guardedly at about him. "You know the button? It is life or death. Can we be alone?" I shook my head dubiously at the word "Foscari," to me impenetrable, but I said: "Lead where you will," and followed him down a dark side street and into a poor foreign wine-shop.

"For twelve hours," he said, passing to its deserted rear room. "Listen, almost the salvation of the order is involved. I must have five hundred dollars within the hour. To be returned at noon tomorrow. Your card, or a designated rendezvous, and then forget, for the good of the brethren." Would you believe it, will you credit me, but as a sentimentalist I placed my hand in his pocket! And too, as a business man, I read in this man's eyes the guarantee of a strict integrity, as I had with many a Levantine trader whose word was as good as his bond. In other words, identifying him only as a man with a peculiar button in his cap, tracing some affiliation of great power and influence, I took out the money, gave it to him with my card, and he vanished and I stood the victim of an impulse I could not analyze.

I was nettled, uneasy after that for a while. I was by no means at poverty's door; my business was not in the best condition in the world. For years our foreign agent had been a shrewd, energetic Italian named Donati. Within a year, anticipating war troubles in Europe, he had sold out. That is, he had taken advantage of his close connection with us to underhandedly transfer contracts to rivals so that we had lost fully 50 per cent. of future business.

We had summarily dismissed the knave, but the mischief was done, and on the eve of marriage to my heart's choice I had called a postponement until my tangled business affairs were straightened out.

At noon the next day I walked my pensioner. He returned the money with a brief word of thanks. About to go his face darkened as his eyes fell upon an old photograph of Donati.

"May I ask about that man?" he inquired, and I told him all.

"Good friend," he said to me, "you have helped me without question. Will you give me an authorization to act for you in regard to the disreputable dealings of this fellow, Donati?"

Within one month every fished and manipulated contract had been restored to the house, and my wedding was on. By what secret power this strange emissary wrought the miracle I know not. I never saw him again. I only know that, invested with some strange power, the representative of a formidable organization, he had well rewarded my haphazard use of the double sign.

PEACE CONFERENCE MAY LAST 3 MONTHS

(By the Associated Press)
PARIS, Nov. 29.—(Havas)—At a meeting preliminary to the sitting of delegates to the peace conference it is announced that committees will be appointed to study different phases of problems which will be involved and present reports to the conference whose deliberations will by this means be of a more definite character. The conference, it is believed, will last for three months and it is not expected that a treaty will be signed before April. David Lloyd-George, British premier, will arrive in Paris about the same time as President Wilson.

SON-IN-LAW GAVE HIM GOOD ADVICE

Cartwright Had Suffered for Twenty Years—Declares It Is Wonderful How Much Tanlac Has Benefited Him.

"I suffered for twenty years, but since taking Tanlac, I believe I am as well and strong as I ever was," said C. F. Cartwright, living at Alton Park, Chattanooga, Tennessee. "My head would be so stopped up every night," he continued, "that I could hardly breathe and I had a choking feeling and shortness of breath that almost drove me wild. Indigestion worried me a good deal and I was so nervous and restless that I dreaded to see night come for I couldn't sleep. I was so weak and rundown that I was unable to work for long at a time and no medicine I took seemed to do me any good. "My son-in-law told me to try Tanlac, and it certainly was good advice, for I started taking it and it is wonderful how much it helped me. My appetite and digestion have improved and I am gaining right along. I sleep well at night and don't have the shoking smothering spells like I used to. The only thing I regret is that I did not have this medicine years ago."

Tanlac is sold in Ada by Gwin & Mays Drug Co.

GLADYS BROCKWELL

LIVES NEW ROLE
The woman who cares intensely what she does and how she is effective in others is a hard one to deal with, but the person upon whom she is hardest upon is herself," said Gladys Brockwell, the star of the new William Fox photoplay, "The Scarlet Road," which will be shown at the American theatre today.

"I have done such a character in this play and she is extremely interesting from every standpoint. She makes a splendid screen personage and one who is very satisfactory to the artist who is privileged to present her on the screen. She is always full of consideration and emotions, and it is the display of these that will interest those who see the play."

LADY DRUGGIST'S ADVICE TAKEN

"My sister-in-law is a druggist. She told me of several bad stomach and liver cases which were benefited by taking Mayr's Wonderful Remedy and advised me to try it. I had numerous bad attacks due to bloating and had almost constant pain in my stomach before getting my remedy. I am feeling fine now." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Gwin & Mays Drug Company, and Druggists Everywhere.

ROBERTSON HAS MADE NO PROMISES

OKLAHOMA CITY, Nov. 27.—That there have been no appointments to state offices made by Governor-Elect J. B. Robertson, and that no promise of appointments have been extended to the numerous applicants, is the positive announcement made at the office of the Governor-Elect, who is still absent from the state.

U. S. Russell, who is at Judge Robertson's office during his absence, said that while numerous applications for appointive positions are being received, that aside from filing them for future consideration by the Governor-Elect, no action was being taken.

"It is the intention of Judge Robertson to devote his energies to the consideration of state affairs and legislative matters during the next few weeks," said Russell. "He does not contemplate announcing but few appointments before the close of the legislative session. Despite the persistent rumors prevailing, there have been no appointments made. It is the hope of Judge Robertson to be able to devote his entire time to more important matters upon his return home within the next week or two."

It is understood that the Governor-Elect will attend a meeting of Governors and Governors-Elect called for December 15, at Washington, at which time the important question of meeting after the war problems will be taken up in conjunction with members of the President's cabinet, who, in the absence of President Wilson, will represent the administration's plan of action.

MENT OF WATERWORKS
SYSTEM OF CITY.

The city commissioners have had under advisement a plan for the issuance of \$75,000 in bonds with which to lower the mains of the water works system in Ada and make improvements, including an extension. An agreement has been reached with C. Edgar Hensald of Oklahoma City whereby he agrees to take the bonds at par and accrued interest, in case they are issued. The bonds will run for twenty-five years and bear six per cent interest. The commissioners will call an election on the proposed issue at an early date.

MAKE ONE BATCH OF DOUGH DO FOR TWO BAKINGS

Make up a batch of dough with Calumet Baking Powder. Use part of it in a baking for your evening meal. Put the balance of dough in the ice box—for breakfast biscuits. Fine, flaky, tempting biscuits that fairly "pop" with goodness. You'll find this a great help. And one that can be found only in

CALUMET BAKING POWDER

The reason is this—the complete leavening action of Calumet never begins until the baking is put into the oven—until it is exposed to oven heat. There is no loss of strength in the can or in the dough. While you are saving minutes with Calumet you are saving money and materials too.

You Save when you buy it—You Save when you use it

It is reasonable in price. It is certain in results. It stops bake-day failures. It is by far the most economical baking powder you can buy or use. Sold under a guarantee of Money-Back-If-You-Are-Not-Satisfied.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

Ada football followers had the opportunity to see all kinds of football when the East Central State Normal and Southeastern State Normal teams met on the local grounds in a game which ended 6-6. The game was played at an inopportune time as both teams were crippled by the loss of star men, Ada without the services of Stegall and Shaw who received broken limbs in the Edmond game last Saturday. The red and white team had several crippled linemen, amongst them being the captain, MacCorkel, who although being ill played a stellar game, and brought his team out of a slump. The aerial game was used by both teams and gained materially, one pass resulting in a touchdown for Southeastern.

Ada's touchdown came in the first quarter. A series of end runs brought the ball to the Southeastern 18 yard line. Kerr then circled right end for a touchdown. Newberry failed to kick goal. The Southeastern touchdown came in the third quarter. With the ball on Ada's 40 yard line MacCorkel passed to Mackin who ran 38 yards for a touchdown dodging four orange and black tacklers.

A large number of fumbles was due to the fact that the field was a sea of mud, dodging being impossible because of the uncertain footing. Play in the first half was entirely in favor of Ada, while Southeastern had an edge in the second half.

Summary of the game: Captain MacCorkel of Southeastern won the toss and chose to defend the west goal being favored with a fair wind. Meadows received the kick off on his 22 yard line and returned 8 yards. Kerr was stopped with no gain. Kerr hits left tackle three yards. Craig makes five through center. Meadows was held and the ball goes over. Early makes three yards around right end. Pickens fumbles and Ada recovers. Newberry stopped on line buck. Craig circled right end 15 yards. Meadows makes one through center. Kerr two around right end. A pass, Craig to McLeod nets 20 yards. Meadows through center two yards. Meadows repeats for same gain. Craig stopped in line buck. Craig makes six around left end in first down. Newberry fails to gain through right center. Hardin in tackle around play. Craig passes. Incomplete. Newberry fails in place kick from 32 yard line. Ball goes over for touch back and is brought to 20 yard line with Durant in possession. McLeod hurt and Hoover replaces him. Early around right end for no gain. Hoover recovers fumble. Ball in Ada's possession on the visitors' 22 yard line. Kerr hits center for four yards. Newberry fails to gain through center. Kerr runs 18 yards around right end for touchdown. Newberry fails to kick goal. Ada 6, Southeastern 0.

Craig kicks off to 20 yard line and Early returns ball 20 yards. Battle thrown for 1 yard loss. Pass, Early to Mackin, nets one yard. Pass, Early to Battle, no gain. Otterson punts 40 yards.

Second Quarter. Newberry returns it five yards. Kerr makes two yards around right end. Meadows fails to gain around left end. Craig makes five through center. Kerr makes three for the same place. Newberry hits same place for five and Craig follows with 10 yard gain through center. Meadows makes five around left end. Ferris fails to gain in tackle around play. Craig passes over center to Kerr for 13 yard gain. Hardin makes one yard through right tackle. At this point fumbles and Otterson recovers for Durant. Otterson makes one through left tackle. Packins four through center for nine yards. MacCorkel is stopped. MacCorkel loses two yards around right end. MacCorkel punts 30 yards. Meadows recovers and returned three. Craig hits line three times for six yards. Newberry makes two through

center and Ball goes to Durant. MacCorkel hits left tackle for eight yards. Forward pass fails. Meadows makes three through center. MacCorkel el one through center. Ada punts 45 yards to 15 yard line. Meadows makes two through left ends. Half ends.

Third Quarter. Craig kicks off to MacCorkel who fumbles. Pickens recovers on his 27 yard line. Early fails to gain around right end. Otterson loses one yard. MacCorkel makes two through right end. MacCorkel punts over Newberry's head who recovers on his 10 yard line. Durant penalized five yards for off side. Craig gains 15 around right end. Meadows makes 15 more around left end. Kerr fails to gain. Meadows thrown for five yard loss. Craig punts out of bounds in center of field. Durant penalized 15 yards for unnecessary roughness. Durant fumbles and Ada recovers. Kerr makes one around end. Craig hits center for three. Craig hits left end for three. Kerr fumbles and Pickens recovers. MacCorkel makes five around right end. Picken one through center. MacCorkel six around right end. Otterson loses four.

MacCorkel passes 20 yards to Mackin, who runs thirty yards for touchdown. Otterson fails to kick goal. Ada 6, Durant 6.

MacCorkel kicks off to Brents on his 20 yard line and he returns 18 yards. Kerr fails to gain. Meadows loses two yards. Craig punts 30 yards. Early recovered MacCorkel's fumble. Otterson makes one yard through right guard. Shriener makes nine through the line. MacCorkel stopped for no gain.

Fourth Quarter. Early makes two through line. Pass, MacCorkel to Battle fails. Pickens fails to gain. Pass, MacCorkel to Otterson fails. Ball goes to Ada. Kerr fails to gain through center. Kerr makes four through center. Craig punts 30 yards to Early who returns two yards. Pickens makes one yard through the line. MacCorkel circled right end fumble upon being tackled. Bigham recovers. Pickens makes four yards. Otterson one, MacCorkel four around right end. Early goes through center for first down. Pass, MacCorkel to Battle, intercepted by Harkins. Craig makes four around right end. Pass, Craig to Brents, nets 15. Craig fails through center. Craig makes two through right tackle. Pass, Craig to Newberry, intercepted by MacCorkel on Durant's 10 yard line. MacCorkel makes 9 1-2 around right end. Pickens thrown for one-half yard loss. Early makes necessary yards through center. Otterson fails to gain through right tackle and is thrown for a two yard loss in circling left end. MacCorkel kicks to Newberry on the 45 yard line. Craig passes to Kerr 9 yards. Time called.

Kerr, Craig and Brents played a good offensive game for Ada. On the defensive Meadows, Craig, Ferris, Harden, Newberry and Brents deserve mention. Dean playing his first game of football showed up well. The Southeastern team is built around MacCorkel, who played the stellar game for them. His entrance to the game gave him the necessary confidence to hold Ada to a tie.

KIDNEYS WEAKENING? LOOK OUT!

Kidney and bladder troubles don't disappear of themselves. They grow upon you, slowly but steadily, undermining your health with deadly certainty, until you fall a victim to incurable disease.

Stop your troubles while there is time. Don't wait until little pains become big aches. Don't trifle with disease. To avoid further suffering begin treatment with GOLD MEDAL Haarlem Oil Capsules now. Take three or four every day until you feel that you are entirely free from pain.

This well-known preparation has been one of the national remedies of Holland for centuries. In 1896 the government of the Netherlands granted a special charter authorizing its preparation and sale.

The good housewife of Holland would almost as soon be without food as without her "Real Dutch Drops," as she quaintly calls GOLD MEDAL Haarlem Oil Capsules. Their use restores strength and is responsible in a great measure for the sturdy, robust health of the Hollanders.

Do not delay. Go to your druggist and insist on his supplying you with a box of GOLD MEDAL Haarlem Oil Capsules. Take them as directed, and if you are not satisfied with results your druggist will gladly refund your money. Look for the name GOLD MEDAL on the box and accept no other. In sealed boxes, three sizes.

KNOX.

Mrs. Ethel Scott visited Mrs. P. L. Cassidy Sunday.

Miss Lillie Clark visited Rosa and Stella Arterberry Sunday.

Quite a bunch of little girls visited Willard and Margie Haines Sunday.

Miss Bertha Oliver visited her sister Mrs. Cooper Monday.

TO AVOID AND RELIEVE INFLUENZA

(By Dr. Franklin Duane) Many people have been frightened by what they have read or heard of influenza. The more you fear the disease, the surer you are to get it. Go right about your business and forget it. As the disease is spread principally by contact through sneezing, coughing or spitting, many health authorities have advised that every one wear a gauze, which is daily washed and saturated with a one to five hundred solution of zinc sulphate in water, and then dried before wearing over the nose and mouth. You should avoid crowds, common drinking cups and public towels. Keep your strength up by taking lots of exercise in the open air and plenty of nourishing food.

If you have any of such symptoms as chilliness, nasal obstructions, flushed face, headache, feverishness, restlessness, weakness, or irritating cough, give up work at once and go to bed. This will save your strength to help overcome the disease. Put your feet in hot water for fifteen minutes. Thoroughly loosen the bowels with some such mild and non-irritating physic as Dr. Pierce's Pleasant Pellets. Drink principally of hot lemonade and then cover up with plenty of clothes in bed so as to get a good sweat. When sweating is free and the fever reduced take a dose of two Anurie Tablets every four hours, followed by drinking at least a glass or two of hot water. Anurie Tablets help quickly to relieve the soreness from the muscles and bones from which most patients complain, and help the kidneys flush out the poisons.

To relieve nasal obstructions a n d excessive discharge from the nose, probably nothing is better than such a mild, soothing, antiseptic wash as Dr. Sage's Catarrh Remedy. It will give great relief. Employed as a gargle, in same strength as made up for use in the nose, and as hot as can be borne, it quickly arrests soreness and dryness in the throat.

Influenza weakens the patient's resistance to disease, so that there is danger of bronchitis and pneumonia developing. To combat this tendency and fortify the patient's strength insist that he keep in bed at least two days. Probably nothing will at this stage hasten the recovery and strengthen the patient more than an iron-ionic tablet called "Ironite" or that well known herbal tonic, Dr. Pierce's Golden Medical Discovery, which has been used by thousands in the past two generations.

ANOTHER ADA SOLDIER REPORTED KILLED

Horace Felton, who resided at Ada, but who was registered at Ardmore, is reported killed in France. Full particulars of his death have not been received by his family.

THE CHEERFUL CHERUB

I feel so blue, dear Reader-friend, I tell you what let's do—Let's have you cheer me up today Instead of me cheer you.

HAVE COLOR IN CHEEKS Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets. Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. To have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets get at the cause and bowels like calomel—yet have no dangerous after effects. They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

The value of real true Christian religion counts naught to some poor deluded heart. And you may as well try to convert the pigeon—As to seek to convince a fool "Dyeing is a fine art;" So to intelligence is directed our earnest appeal; Whether or not it will be of any avail, And may heaven be a witness and fix the seal—We will pay for our failures without fail.

The World Waited Four Years For the Man Who Could WIN!

WILLIAM FOX
Presents

"Why America Will Win"

The graphic life story of the greatest American Commander

GENERAL J. J. PERSHING

HE HAS ALWAYS WON

SEE how the backwoods boy won out in the little Missouri schoolhouse
SEE how the suffering of the Man—the husband and the father—only increased his determination to win
SEE how the young military attaché was the first to discover the Kaiser's plot against the World—Destiny has picked him to WIN

SEE how he wins the decisive battles of four great wars
SEE how he won the allegiance of a great tribe—He had conquered—been made a Prince—was offered a dusky bride—to refuse would be a deadly insult—what did he do?
